WHY USE FOUR POINTS TECHNOLOGY?

Four Points Technology, an SBA-certified Service Disabled Veteran Owned Small Business (SDVOSB) Value Added Reseller, is a trusted advisor providing enterprise solutions for Federal System Integrators (FSI). Our disciplined approach to the management of product delivery and ancillary services provides us access to the latest technology at a pace that supports rapid implementation and clear productivity gains for our respected FSIs.

We support our FSIs in two different scenarios, as defined below:

- Work with FSIs and Civilian/DoD clients in support of a modernization requirement under their agency prime contract.
- As an Service Disabled Veteran Owned Small Business, we partner, as a prime or sub, with the FSI, who develops the ROM and utilizes our small business designation for procurement.

Whether it's a mission critical program, internal IT requirement, or a unique tactical requirement, Four Points Technology is proud to be a partner who consistently delivers high-value, low-risk capabilities.
